

Slavery was abolished
150 years ago...

and yet there are more
people in slavery today...

than at any other time
in our history.

Please mark your calendar for a very important FREE Human Trafficking Training

- Sex traffickers often recruit children because not only are children more unsuspecting and vulnerable than adults, but there is also a high market demand for young victims.
- In approximately 54% of human trafficking cases, the recruiter is a stranger, and in 46% of the cases, the recruiters know the victim. Fifty-two percent of human trafficking recruiters are men, 42% are women, and 6% are both men and women.
- Human trafficking is the third largest international crime industry (behind illegal drugs and arms trafficking). It reportedly generates a profit of \$32 billion every year.
- Although human trafficking is often a hidden crime and accurate statistics are difficult to obtain, researchers estimate that more than 80% of trafficking victims are female. Over 50% of human trafficking victims are children.
- The average age a teen enters the sex trade in the U.S. is 12 to 14-year-old. Many victims are runaway girls who were sexually abused as children.
